

TenActiv™ | S21TXUGFN

Ultra-thin with maximum cut protection

ABOUT THE PRODUCT

Our hi-viz TenActiv™ S21TXUGFN gloves are silicone-free and deliver the industry's highest level of cut protection in a thin 21-gauge knit. With a barehand feel, they offer high durability without sacrificing flexibility which makes them ideal for tasks with risk of extreme cut hazards that also requires a high level of dexterity. The ultra-thin foam nitrile palm coating provides a strong, steady grip in lightly oiled conditions, all while being touchscreen compatible.
